FLOOD® Wood Care offers products for preparing all types of wood, and for cleaning stained or resurfaced wood between applications.

FLOOD® PRO SERIES ALL-PURPOSE DECK WASH

- Safe maintenance cleaner for stained or resurfaced decks
- Removes dirt and grime, leaf, mold, mildew and algae stains

FLOOD® PRO SERIES WOOD STRIPPER

- Strips and cleans in one step
- Removes dirt and grime, mold and mildew stains.

FLOOD® PRO SERIES WOOD CLEANER

- Works in 5-10 minutes; can clean a deck in less than half the time it takes to power-wash
- Rinses away with water*

Deck, Chairs: Timberline (Solid Color)

REMOVES 4X MORE DIRT AND MILDEW STAINS THAN WATER ALONE

* For tough stains, scrubbing provides best results

Siding: Rustic Cedar (Semi-Transparent)

CHOOSE YOUR LOOK

PRODUCT TYPES ARE DEFINED BY LEVELS OF PIGMENT/COLOR AND WOOD GRAIN/TEXTURE

SEMI-TRANSPARENT

Semi-transparent stains conceals imperfections, while still showing the natural grain variation and texture. They add more color and UV protection than transparent and clear stain opacities.

SOLID COLOR

Solid Color stains provide an opaque finish that completely hides the grain and wood's natural color. They showcase the texture of wood while concealing imperfections and providing more UV protection than other stain opacities.

THE WOOD CARE SPECIALIST®

Founded in 1841 by the Flood family of painters, the FLOOD® brand has earned its reputation as *The Wood Care Specialist* by creating products that protect, preserve and beautify any wood project. We understand the time and effort involved in exterior wood care and the pride and satisfaction felt in a job well done. That's why *Flood* products can be trusted to deliver consistent and quality results, long-lasting performance and peace of mind.

OUR STORY

Under the leadership of Earl D. Flood, the *Flood* Company introduced PENETROL,® a high solids, durable paint oil used as a protective coating for wood and metal or as a paint additive to assure smooth and easy application of oil based paints and varnishes. In 1970, with the growth of pressure-treated lumber, the *Flood* Company, using *Penetrol* additive as a key ingredient, developed a clear finish for pressure-treated lumber, which came to be known as CWF® (Clear Wood Finish). Today, *Penetrol* additive and the *CWF* product line is still sought after and recognized among professionals and homeowners.

COLOR ACCURACY: Colors shown in this brochure may not be a precise representation of the finished product applied. Colors vary with wood species, color, grain and texture. Color chips shown are subject to the effects of heat, light, age, and other processes, and vary slightly from the actual wood stain. Therefore a trial area is suggested before proceeding with entire job.

FRONT COVER Siding: Tobacco (Semi-Transparent) House Trim: Brick Red (Semi-Transparent) Window Trim: Taupe (Solid Color)
